REQUIRED

Texas Vaccines for Children Program Patient Eligibility Screening Record

A record of all children 18 years of age or younger who receive immunizations through the Texas Vaccines for children (TVFC) Program must be kept in the health care provider's office for a minimum of five (5) years. Record may be completed by parent, guardian, individual of record, or by the health care provider. TVFC eligibility screening and documentation of eligibility status must take place with each immunization visit to ensure eligibility status for the program. While verification of responses is not required, it is necessary to retain this or a similar record for each child receiving vaccines under the TVFC program.
